 Including Gen. 96, 261, 697 and 784 (Probably also related to Gen. 346 and 631)
 (Rev. 21 Jan. 2022)

NOTE: This chart shows male lines of descent only, since the focus is on using Y-DNA analysis to trace the Greaves name.
 The number in each bracket indicates how many Y-DNA tests were done.
 Because the geographical origin of a surname is often uncertain, it is assumed that the common ancestor of all Greaves is the same as the common ancestor of all Greaves who have been tested. The number in each bracket indicates how many Y-DNA tests were done.
 All names with the same date have the same DNA test results, and names with the same date have the same DNA test results.
